

UK Care Home Experience → Canada PR

UK care visa ending? Your experience may open a Canadian PR strategy — if you meet the Canadian rules.

Why Canada can be worth assessing

A UK care-home worker does not transfer a UK visa into Canada. Instead, your UK employment can potentially be used as foreign skilled work experience for Canadian immigration. A major opportunity is Canada's Express Entry Healthcare and Social Services category, which currently includes NOC 33102 — Nurse aides, orderlies and patient service associates.

UK care experience → correct Canadian NOC → language test → education/ECA → Express Entry eligibility → Express Entry profile → healthcare-category/general draw or PNP → ITA/nomination → PR application → medical/police/admissibility → Canadian PR.

Important: This is a Canadian immigration strategy, not a “UK care visa conversion”. Your UK immigration status and Canadian immigration process are separate.

1. Can Your UK Care Home Job Count?

The first step is NOC matching. Canada assesses the actual work performed, including the lead statement and main duties, rather than relying only on a UK job title.

NOC 33102 — Nurse aides, orderlies & patient service associates

TEER 3. Currently included in Express Entry's Healthcare and Social Services category. UK institutional care-home experience may potentially fit when the duties genuinely match.

NOC 44101 — Home support workers, caregivers & related occupations

Different occupation and work context. Do not choose it simply because the word "care" appears in the job title. Duties and setting determine the NOC.

Healthcare & Social Services category — key requirements

Requirement	What it means for the UK care worker
Eligible occupation	NOC 33102 is currently listed. Your real duties must match the NOC lead statement and most main duties.
Recent experience	At least 12 months full-time or equivalent part-time experience in an eligible occupation within the past 3 years. It may be in Canada or abroad.
Express Entry program	You must first qualify for an Express Entry program, such as the Federal Skilled Worker Program.
Language	Approved English or French test required. Stronger scores can improve your CRS ranking.
Education	Foreign education generally needs an ECA when required for the chosen Express Entry program.
Admissibility	Medical, criminality/security and other admissibility requirements apply.

Do not assume: "I worked in a care home for one year, so I automatically qualify." NOC, program eligibility, language, education, CRS and admissibility all matter.

2. Step-by-Step: UK Care Worker → Canada PR

Step	Stage	What happens
1	Map your UK job to a Canadian NOC	Use your contract, employer reference, job description and actual duties. NOC 33102 may be relevant for institutional care-home work.
2	Confirm recent qualifying experience	For the current healthcare/social-services category, check the 12-month/3-year rule and whether your duties meet the selected NOC.
3	Take an approved language test	Use an IRCC-approved English or French test. IELTS General Training, CELPIP-General and PTE Core are among the accepted English options.
4	Assess education / ECA	Collect certificates and transcripts. If your education is foreign, obtain an ECA when required for your program.
5	Check Federal Skilled Worker eligibility	UK experience can be foreign skilled experience. FSW requires TEER 0-3 work, at least 1 year continuous qualifying work in the last 10 years, language and education requirements, and 67/100 selection-factor points.
6	Calculate CRS	CRS ranking is separate from the FSW 67-point test. Age, language, education, experience and other factors affect the CRS score.
7	Create Express Entry profile	If eligible, submit the profile. IRCC places eligible candidates in the pool and ranks them.
8	Target healthcare draws / PNP	NOC 33102 is currently in the healthcare/social-services category. A provincial nomination can also be a separate strategy where provincial criteria are met.
9	ITA / nomination → PR application	After an invitation or nomination, submit the full PR application with required documents within the applicable deadline.
10	Medical, police & final decision	Complete admissibility checks, provide police certificates/medical evidence and respond to IRCC requests. If approved, complete the PR landing process.

Key advantage for UK care workers

You do not necessarily need Canadian work experience before starting the Express Entry strategy. The current healthcare/social-services category allows qualifying experience gained in Canada or abroad. Your UK experience can therefore potentially be the foundation of the profile, provided all requirements are satisfied.

3. What If Express Entry Score Is Not Enough?

Express Entry is the main route to assess, but a provincial nomination can provide another strategy. Provincial programs change frequently and may require a Canadian job offer, Canadian work status, a provincial connection or other criteria.

Express Entry — Healthcare & Social Services

Primary strategy. NOC 33102 is currently included. Requires Express Entry eligibility, qualifying recent experience and a competitive CRS score in the relevant round.

Federal Skilled Worker

Useful for qualifying foreign skilled experience. Work must be TEER 0-3 and meet the FSW rules, including the continuous-work and language/education requirements.

Provincial Nominee Programs

Healthcare occupations are targeted in some 2026 provincial selections. Ontario's 2026 updates include NOC 33102 in targeted healthcare/in-demand invitations; BC has also issued 2026 Care: Health invitations to priority healthcare occupations.

Home Care Worker Immigration Pilots

Important current status: Canada's Home Care Worker Immigration Pilots are closed to new applications while IRCC focuses on existing applications. Do not market this as an open immediate PR route.

Documents to collect before the UK visa expires

- Identity/status: passport, UK eVisa/BRP history and immigration records.
- Employment: contracts, employer letters, dates, hours, salary and detailed duties.
- NOC evidence: employer reference should clearly describe duties that match the selected Canadian NOC.
- Language: valid approved English/French test result.
- Education: certificates/transcripts and ECA where required.
- Police certificates: prepare as required for countries where you have lived.
- Proof of funds: where required by the chosen Express Entry program.
- Family documents: marriage/common-law and children's documents where applicable.

UK visa expiry warning: A Canadian PR application does not extend or preserve UK immigration permission. Manage the UK status and Canadian process separately, and start early.

4. Quick Assessment — Is Canada a Good Option?

Situation	Strategy to assess	Main decision factors
12+ months recent qualifying care experience	Express Entry Healthcare & Social Services	Correct NOC, Express Entry eligibility, language, education and CRS/invitation.
Care-home duties don't fit NOC 33102	Re-check NOC before applying	Actual duties may point to another NOC. Never select a code only because the title sounds similar.
Strong English + good education + younger age	Express Entry / healthcare category	These factors can improve CRS, but the actual score must be calculated from current rules.
CRS not competitive	PNP + Express Entry strategy	Province, occupation, job offer/work status and provincial selection criteria.
No Canadian job yet	Start with Express Entry eligibility	Healthcare category can use qualifying foreign experience; a Canadian job is not automatically required for the category.
UK visa expiring soon	Start assessment immediately	Canada immigration is separate from UK status. Do not wait until the final weeks.

Your practical roadmap

UK care experience → NOC assessment → 12-month recent experience check → language test → ECA/education → FSW + CRS assessment → Express Entry profile → healthcare draw / PNP → ITA or nomination → PR application → medical/police/admissibility → Canadian PR.
